

Course Syllabus

COURSE: SRGT 1405 (4:3:4) Introduction to Surgical Technology (4 Credit Hours)
 SEMESTER: Spring 2017 (January - May; 16 week Semester)
 CLASS TIMES: Monday 8:30am – 11:30am (Lecture), Monday 12:30pm – 4:00pm (Lab)
 Instructor: Paul Landsman CST
 OFFICE: RC512d
 OFFICE HOURS: Fridays or by appointment only
 OFFICE PHONE: 806-716-4642
 E-MAIL: plandsman@southplainscollege.edu
 PROGRAM FACEBOOK: <https://www.facebook.com/SPCSurgicalTechnology>

The Surgical Technology Program has a Facebook page at <https://www.facebook.com/SPCSurgicalTechnology>. In addition to the South Plains College website, this Facebook page will be used to keep students up-to-date on program activities, weather delays, South Plains College announcements and will help with program recruitment. “Liking” the Surgical Technology Facebook page is not mandatory, nor are personal Facebook accounts, in order to access this page.

Blackboard is an e-Education platform designed to enable educational innovations everywhere by connecting people and technology. This educational tool will be used in this course throughout the semester.

“South Plains College improves each student’s life.”

GENERAL COURSE INFORMATION

COURSE DESCRIPTION

This course provides an orientation to surgical technology theory, surgical pharmacology and anesthesia, and patient care concepts.

STUDENT LEARNING OUTCOMES

Students will:
1. Understand surgical technology theory as it applies to the operating room. F-1, F-2, F-5, F-6, F-7, F-8, F-9, C-5, C-6, C-7, C-15
2. Identify various instrumentation sets. F-5, F-6, F-10, F-11, F-12, C-3, C-5, C-6, C-7, C-18, C-19, C-20
3. Describe the needs of the patient. F-1, F-2, F-5, F-6, F-8, F-9, C-5, C-6, C-7, C-8, C-11, C-14
4. Identify various credentials in the operating room. F-1, F-2, F-5, F-6, F-13, F-14, F-15, C-5, C-6, C-7, C-8
5. Be able to meet needs of the surgical patient during the pre-operative stage. F-1, F-2, F-5, F-6, F-7, F-8, F-10, F-12, F-17, C-1, C-3, C-5, C-7, C-9, C-10, C-11, C-12, C-15, C-19, C-20
6. Be able to meet needs of the surgical patient during the operative stage. F-1, F-2, F-5, F-6, F-7, F-8, F-10, F-12, F-17, C-1, C-3, C-5, C-7, C-9, C-10, C-11, C-12, C-15, C-19, C-20

COURSE OBJECTIVES

The Cognitive Domain Objectives:

- Define good and bad stressors

- State the reasons for surgical intervention
- Identify hospital organization structures
- List the chain of command in the operating room
- Describe environmental conditions in the OR and the purpose that each serves
- Define surgical conscience and ethics
- State the principles of Standard Precautions
- List members of the OR team and describe their duties
- List and define medical specialties
- List and define the uses of accessory equipment
- Describe types of wound healing
- Define the process of infection and types of wound infections
- Describe types, sizes, and uses of needles and sutures
- List types and purposes of dressings, sponges, and packing
- List tumor classifications
- Define the Patient's Bill of Rights
- Describe the steps for sponge, needle, and instrument counts
- List types of specimens and their care
- Identify historical figures who helped develop early microbiology and asepsis
- List historical theories in microbiology
- List the types of anesthesia care
- Describe inhalation anesthesia
- List physiological requirements for surgery
- List the use of common operative table accessories
- List characteristics of common surgical prep solutions
- List categories of controlled substances
- List basic needs types and their applications
- Recognize commonly used stapling devices

The Psychomotor Domain Objectives:

- Apply theory to practice in lab and Clinical settings
- Explain why preoperative fasting is important
- Differentiate among analgesia, sedation, unconsciousness, and amnesia
- Use the correct procedure to identify inhalant
- Describe the principles of safe positioning
- Identify necessary precautions to prevent injury associated with skin preparation
- List the proper technique for draping the patient for torso, limb, and lithotomy procedures
- Accurately define and use terminology describing drug handling and drug administration
- Identify the parts of a syringe and explain the importance of syringe safety features
- Recognize suture properties and materials by observing and handling suture
- Identify sutures by package labeling, and select proper sutures

The Affective Domain Objectives:

- Understand the importance of stress management
- Recognize the professional roles and competencies of the surgical technologists

- Understand the consequences of not adhering to Standard Precautions
- Recognize the importance of Patient's rights
- Discuss blood handling, blood loss, and cell savers
- Discuss special needs patients
- Describe the responsibilities of the surgical technologist in patient transport and transfer
- Demonstrate the transfer of patient from a stretcher to the operating table
- Demonstrate commonly used methods of patient positioning
- Discuss the concepts of body hair management prior to surgery
- Discuss the proper procedure to perform the surgical skin preparation for all areas of the body
- Discuss the aspects of drug action
- Demonstrate proper preparation of suture for use
- Discuss the process of wound healing
- Discuss the complications of wound healing
- Discuss possible post-anesthesia risks
- Discuss process of patient discharge
- Discuss the process of dying and death

OUTCOMES ASSESSMENT METHODS

Assessment methods for this course are both formative and summative.

Formative assessments include:

- discussions
- quizzes
- unit exams
- classroom activities
- lab activities

Summative assessment:

- comprehensive final exam

ACADEMIC INTEGRITY

It is the aim of the faculty of South Plains College to foster a spirit of complete honesty and a high standard of integrity. The attempt of any student to present as his or her own any work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offender liable to serious consequences, possibly suspension.

Cheating - Dishonesty of any kind on examinations or on written assignments, illegal possession of examinations, the use of unauthorized notes during an examination, obtaining information during an examination from the textbook or from the examination paper of another student, assisting others to cheat, alteration of grade records, illegal entry or unauthorized presence in the office are examples of cheating. Complete honesty is required of the student in the presentation of any and all phases of coursework. This applies to quizzes of whatever length, as well as final examinations, to daily reports and to term papers.

Plagiarism - Offering the work of another as one's own, without proper acknowledgment, is plagiarism; therefore, any student who fails to give credit for quotations or essentially identical expression of material taken from books, encyclopedias, magazines and other reference works, or from themes, reports or other writings of a fellow student, is guilty of plagiarism.

In other words, if an article is on Wikipedia, various websites, magazines and or books, and you are not the author of said article, it is considered plagiarism if you turn this article in as your own work. We all hate when Wikipedia copies our homework! However, it is your responsibility to prove that the author stole this wonderful article from your homework assignment.

SCANS and FOUNDATION SKILLS

Refer also to Course Objectives. SCANS and Foundation Skills attached.

VERIFICATION OF WORKPLACE COMPETENCIES - CAPSTONE EXPERIENCE NOT INCLUDED

SPECIFIC COURSE INFORMATION

TEXT AND MATERIALS

1. Surgical Technology for the Surgical Technologist: A Positive Care Approach, 4th ed., AST (Text)

METHODS OF TEACHING:

- Lecture
- PowerPoint Presentations
- Role playing
- Question/answer
- Review
- Quizzes
- Examinations
- Demonstration

ATTENDANCE POLICY

Class attendance is mandatory. Students are allowed three (3) absences and will be administratively withdrawn on the fourth (4th) absence. A tardy will be given if the student is not present for class or lab within 5 minutes of the beginning of the class period. Two (2) tardies equal one (1) absence. If a student misses more than 30 minutes of any class session, an absence will be given for the day.

Students are expected to attend all classes in order to be successful in a course. The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus.

When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the instructor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first class meeting.

Students who enroll in a course but have "Never Attended" by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of "X" or "F" as determined by the instructor. Instructors are responsible for clearly stating their administrative drop policy in the course syllabus, and it is the student's responsibility to be aware of that policy.

It is the student's responsibility to verify administrative drops for excessive absences through MySPC using his or her student online account. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

ASSIGNMENT POLICY

The student is responsible for being prepared for class, which means reading the assigned chapters and/or pages from the textbook. In some instances, information from the reading assignments not covered during class may be included on a test.

GRADING POLICY - Grades in this course will be determined using the following criteria:

The course grade will be determined by a combination of major exams, quizzes, homework, lab work and a comprehensive final exam. Exam dates will be announced. The following guidelines are provided regarding exams:

1. The student is expected to complete the exam at the scheduled time. Make-up exams will **not** be given.
2. Late assignments will not be accepted.
3. The didactic final exam is comprehensive.
4. The final instrument exam is comprehensive.
5. The last two weeks of the semester is dedicated to the Summative Lab Final for SRGT 1409, due to the complexity and length of this final.

(6) Homework		10%
(3) Exams		20%
(1) Comprehensive Didactic Final Exam		25%
(4) Instrument	Tests	20%
(1) Comprehensive Instrument	Final	25%

<i>Grading</i>	<i>Scale</i>	<i>90-100 = A</i>
		<i>80-89 = B</i>
		<i>75-79 = C</i>
		<i>Below 75 is failing</i>

A final grade average of C (75) must be maintained in all Surgical Technology classes. You must pass all courses to proceed to the next semester.

COMMUNICATION POLICY

Electronic communication between instructor and students in this course will utilize the South Plains College "My SPC" and email systems. Instructor will not initiate communication using private email accounts. Students are encouraged to check SPC email on a regular basis.

STUDENT CONDUCT

Students in this class are expected to abide by the standards of student conduct as defined in the SPC Student Guide.

There are no stupid questions. If you have a question, please ask.

You are under no pressure to sound like a genius every time you speak! However, we do reserve the right to give you a hard time if you ask questions like "Why do we have a right or left shoe and not right or left socks?"

You are primarily in lab to practice skills, not to check and update facebook or snapchat.

Your participation in the form of questions, comments and feedback is invited and appreciated. However, every semester there's at least one person who incessantly asks questions just to try to be funny, argue, or cause trouble. Nobody appreciates this behavior and it is counterproductive. You know who you are, please leave those attributes in your car on the way into the building.

SPECIAL REQUIREMENTS

Cell Phones – Cell phones are permitted in class and lab. They **MUST** be turned to silent. A student whose phone sounds during class, or is observed to be using the phone in any way without permission from the instructor will be sent home for the day with an absence.

COURSE OUTLINE

Course Outline is subject to change by instructor.

Lecture Topics

- A. Orientation to Surgical Technology
- B. Standards of Conduct
- C. Physical Environment and Safety Hazards
- D. The Surgical Patient
- E. Special Populations
- F. Biomedical Science

Please note that mindtap homework assignments are due by 8:30am on the day of the test.

Dates are not set in stone and may change.

Monday 1/22/18: *power point, lecture*

Syllabus, question/answer

Chapter 1 – Orientation to Surgical Technology

- History of Surgery
- Surgery today – Surgical Specialties
- Field of Surgical Technology
- The Surgical Technologist as a Professional
- Clinical Ladder Program
- Communication and Teamwork
- Surgical Conscience
- Health Care Facilities
- Hospital Organization

Homework Chapter 1

Monday 1/29/18: *power point, lecture*

Chapter 2 – Standards of Conduct

- Legal issues
- Ethical and moral issues

Monday 2/5/18: *power point, lecture, class activity*

Finish Chapter 2

- Scope of practice
- Risk management and liability

• **INSTRUMENT TEST SETS 1-3 Wednesday 2/7/2018**

Monday 2/12/18: *exam, power point, lecture*

Chapter 1 and 2 Homework due

Exam Chapters 1/2

Chapter 5 – Physical Environment and Safety Hazards

- Physical design of the surgery department
- Hazards and regulatory agencies
- Safety considerations

Monday 2/19/18: *power point, lecture*

Finish Chapter 5

- Biological hazards and safety considerations
- Chemical hazards and safety considerations

• **INSTRUMENT TEST SETS 1-5 Wednesday 2/28/2018**

Monday 2/26/18: *power point, lecture*

Homework Chapter 5 due

Chapter 3 – The Surgical Patient

- The STSR and the surgical patient
- Physical, Psychological, Social, and Spiritual needs of the surgical patient
- Understanding the surgical patient as a human being

*****There will be no lab March 5th - March 8th due to hospital visits*****

Monday 3/5/18: *exam, power point, lecture*

Homework Chapter 3 due

Exam Chapters 5/3

Chapter 4 – Special Populations

- Life stage development
- Pediatric patients
- Patients with obesity
- Patients with diabetes

- Pregnant patients
- Immunocompromised patients
-

*****Spring Break – 3/12 through 3/16*****

Monday 3/19/18: *power point, lecture*

Finish Chapter 4

- Patients with disabilities
- Isolation patients
- Geriatric patients
- Trauma patients
- Considerations for the ST/Preparation of the case

Homework Chapter 4

*****INSTRUMENT TEST (1-5) Wednesday 3/21/2018*****

Monday 3/26/18: *power point, lecture*

Homework Chapter 4 due

Chapter 6 – Biomedical Science

- Computers
- Electricity

*****MONDAY APRIL 2nd EASTER HOLIDAY*****

Monday 4/9/18: *power point, lecture*

Finish Chapter 6

- Physics
- Surgical Robots
- The OR of the future/role of the ST

Homework Chapter 6

Monday 4/16/18: *exam, power point, review*

Homework Chapter 6 due

Exam Chapters 4/6

*****INSTRUMENT FINAL APRIL 18th *****

Monday 4/23/18: **COMPREHENSIVE FINAL EXAM**

Presentations

4/30/18 through 5/10/18: (Scheduled comprehensive lab skills finals)

ACCOMMODATIONS

DIVERSITY STATEMENT

In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

DISABILITIES STATEMENT

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland Student Health & Wellness Center 806-716-2577, Reese Center (also covers ATC) Building 8: 806-716-4675, Plainview Center Main Office: 806-716-4302 or 806-296-9611, or the Health and Wellness main number at 806-716-2529.

FOUNDATION SKILLS

BASIC SKILLS—Reads, Writes, Performs Arithmetic and Mathematical Operations, Listens and Speaks

F-1 Reading—locates, understands, and interprets written information in prose and in documents such as manuals, graphs, and schedules.

F-2 Writing—communicates thoughts, ideas, information and messages in writing and creates documents such as letters, directions, manuals, reports, graphs, and flow charts.

F-3 Arithmetic—performs basic computations; uses basic numerical concepts such as whole numbers, etc.

F-4 Mathematics—approaches practical problems by choosing appropriately from a variety of mathematical techniques.

F-5 Listening—receives, attends to, interprets, and responds to verbal messages and other cues.

F-6 Speaking—organizes ideas and communicates orally.

THINKING SKILLS—Thinks Creatively, Makes Decisions, Solves Problems, Visualizes and Knows How to Learn and Reason

F-7 Creative Thinking—generates new ideas.

F-8 Decision-Making—specifies goals and constraints, generates alternatives, considers risks, evaluates and chooses best alternative.

F-9 Problem Solving—recognizes problems, devises and implements plan of action.

F-10 Seeing Things in the Mind's Eye—organizes and processes symbols, pictures, graphs, objects, and other information.

F-11 Knowing How to Learn—uses efficient learning techniques to acquire and apply new knowledge and skills.

F-12 Reasoning—discovers a rule or principle underlying the relationship between two or more objects and applies it when solving a problem.

PERSONAL QUALITIES—Displays Responsibility, Self-Esteem, Sociability, Self-Management, Integrity and Honesty

F-13 Responsibility—exerts a high level of effort and perseveres towards goal attainment.

F-14 Self-Esteem—believes in own self-worth and maintains a positive view of self.

F-15 Sociability—demonstrates understanding, friendliness, adaptability, empathy and politeness in group settings.

F-16 Self-Management—assesses self accurately, sets personal goals, monitors progress and exhibits self-control.

F-17 Integrity/Honesty—chooses ethical courses of action.

SCANS COMPETENCIES

C-1 **TIME** - Selects goal - relevant activities, ranks them, allocates time, prepares and follows schedules.

C-2 **MONEY** - Uses or prepares budgets, makes forecasts, keeps records and makes adjustments to meet objectives.

C-3 **MATERIALS AND FACILITIES** - Acquires, stores, allocates, and uses materials or space efficiently.

C-4 **HUMAN RESOURCES** - Assesses skills and distributes work accordingly, evaluates performances and provides feedback.

INFORMATION - Acquires and Uses Information

C-5 Acquires and evaluates information.

C-6 Organizes and maintains information.

C-7 Interprets and communicates information.

C-8 Uses computers to process information.

INTERPERSONAL—Works With Others

C-9 Participates as members of a team and contributes to group effort.

C-10 Teaches others new skills.

C-11 Serves Clients/Customers—works to satisfy customer’s expectations.

C-12 Exercises Leadership—communicates ideas to justify position, persuades and convinces others, responsibly challenges existing procedures and policies.

C-13 Negotiates-works toward agreements involving exchanges of resources; resolves divergent interests.

C-14 Works With Diversity—works well with men and women from diverse backgrounds.

SYSTEMS—Understands Complex Interrelationships

C-15 Understands Systems—knows how social, organizational, and technological systems work and operates effectively with them.

C-16 Monitors and Corrects Performance—distinguishes trends, predicts impacts on system operations, diagnoses systems performance and corrects malfunctions.

C-17 Improves or Designs Systems—suggests modifications to existing systems and develops new or alternative systems to improve performance

TECHNOLOGY—Works with a Variety of Technologies

C-18 Selects Technology—chooses procedures, tools, or equipment, including computers and related technologies.

C-19 Applies Technology to Task—understands overall intent and proper procedures for setup and operation of equipment.
