#### **Class Attendance Policy**

Class attendance, even online, is extremely important in order to meet the objectives of this course. A STUDENT IS RESPONSIBLE FOR INITIATING HIS OR HER OWN WITHDRAWAL, if that becomes necessary.

## Students will be dropped from a course if they:

- 1. Do not sign in the first week of the semester.

Also, a student will be administrative withdrawn from the course if the professor believes that the student will **not** pass the course or the student is **not** completing the course work.

\*If you have any difficulties during the semester please inform the professor. The professor will work with you in order to complete the course.

Students are expected to attend all classes in order to be successful in a course. When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the professor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the professor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first-class meeting.

Students, who enroll in a course but have "Never Attended" by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does <u>not</u> meet the attendance requirements of a class as stated in the course syllabus and does <u>not</u> officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of "X".

It is the student's responsibility to verify administrative drops for excessive absences through MySPC using his or her student online account. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

40% - The average of the 4 exams

Equals = 100%

**Homework:** Add your grades on the homework assignments and divide the result by the number of homework assignments that were assign to you in this class, which equals 52 assignments. Then, multiply this value by 0.40 = (40% of your final grade in the class).

Quizzes: Quiz 1, Quiz 2, Quiz 3, and Quiz 4

Add up your grades on the quizzes and divide the result by 4.

Then, multiply this value by 0.20 = (20% of your final grade in the class).

Exams: Exam 1, Exam 2, Exam 3, and Exam 4

Add up your grades on the exams and divide the result by 4.

Then, multiply this value by 0.40 = (40% of your final grade in the class).

To calculate your final grade for the class: Add together your 40% of the average homework grade (40% of the final grade), 20% of the average quiz grade (20% of the final grade), and 40% of the average exam grade (40% of the final grade).

Numeric grades will be given on all homework assignments, all quizzes, and exams. In addition, you will receive a letter and numeric grade for your final grade in the course.

Grade distribution is as follows:

90 - 100 = A

80 - 89 = B

70 - 79 = C
